

Directions to the *ELT well* office: 1&3 West Street, Morecambe, LA3 1RB

If you are coming **by car**, leave the M6 at junction 34 and follow the signs towards Morecambe / Heysham. At the big junction (with McDonalds opposite you) you should turn right, still following signs for Morecambe. At the next roundabout, turn left into Westgate, following the signs to West Promenade / West End / Sandylands. Follow this road all the way to the sea front, going past the cemetery (on the left), over a railway bridge, past the fire

station (on the right), and over another railway bridge. At the junction where the Texaco station is, the road changes its name to Regent Road, but keep going straight on to the sea front, where you should turn left at the lights. Once on the promenade, there is a large disused church on the left and this marks the corner of West Street. Turning into West Street (which is a one-way street), *ELT well* is the first shop front under the red and white veranda on the right-hand side, opposite the church. There is parking available outside the office – free for an hour. If you are staying longer you might want to look on the promenade for a parking place – it is mostly free along there. If you get as far as the Battery (used to be a large pub, now being redeveloped) without finding anything, turn right in front of the Battery building and you will find a large pay and display car park.

If you are **travelling by train**, Lancaster is the nearest mainline station. From here you could get a taxi and it should take about 15 – 20 minutes if there is no traffic. You could also change onto the local branch line and go to Morecambe station, which takes about 10 minutes and costs about £3.00. From Morecambe station, walk up to the sea front, and turn left. It's less than a mile, past a lot of small hotels and seaside shops, and when you see the disused church on the left, you know that is West Street. On West Street, *ELT well* is the first shop front under the veranda on the right-hand side, opposite the church.

From Lancaster, you could take a **bus** from the bus station: any bus that goes to the Battery (for example: 2, 4, 6). Try to get off at the stop before the Battery, at the church mentioned above, on the corner of West Street. The bus driver will certainly help you find it, as will any of the other passengers – they are generally a friendly bunch!
